On the base of the skills mapping and the BoostClass 2.0 Framework to integrate new technologies on adult education through project-based learning, the e-course "Boosting Class 2.0 for high-quality teaching in adult education" has been designed. It is addressed to promote and implement effectively the integration of new technologies in adult education. It intends to provide teachers with needed skills to reinforce the teaching and learning process in distance learning implementation to improve the quality of teaching.

BoostClass2.0

Course in Boosting Classes 2.0 for high-quality teaching in adult education (BoostClass 2.0)

Project no. 2020-1-IT02-KA204-079329

Co-funded by the Erasmus+ Programme of the European Union

COURSE OUTLINE

The learners will pilot the developed course in the BoostClass 2.0 Learning Environment and user feedback, given the future development of the methodology, will be collected.

The training is structured into 4 modules as follows:

1. How to re-think the classes' borders by exploiting of ICT potentialities.

2. How to develop and design effective assessment and evaluation system for distance learning.

3. How to increase adult learners' motivation through the use of technologies.

4. How to implement effectively combined pedagogical approaches such as project-based learning and episodes of situated learning.

DELIVERY METHOD

Delivered by a BoostClass 2.0 Learning Environment through multimedia lessons, guidelines, games scenarios and lecture notes.

All materials are available in English, Italian, Bulgarian, Romanian and Spanish.

At the training end, learners will receive an attendance certificate.

TARGET GROUP

• Teachers and learners in schools for adult education.
